

Second Hand Piston Electric Air Compressor for Sale in Sri Lanka 2024: Price List, Quotation & Buying Guide

Second Hand Piston Electric Air Compressor for Sale in Sri Lanka 2024: Price List, Quotation & Buying Guide

Why Businesses Are Switching to Used Piston Compressors

Are second hand piston electric air compressor prices in Sri Lanka making you rethink your equipment budget? You're not alone. Factories, workshops, and construction sites across Colombo, Galle, and Kandy are opting for reliable pre-owned units to cut costs by 40-60% compared to new models.

The Real Cost of New vs. Used Units

A brand-new 7.5HP piston compressor costs LKR 550,000-750,000. But used models with 1-3 years of service sell for just LKR 200,000-350,000. Take Sunil's case - this Kandy-based garage owner saved LKR 320,000 buying a 2021 Atlas Copco unit through a verified Colombo supplier.

2024 Price Trends in Sri Lanka's Market

Current price per piece ranges:

3HP units: LKR 120,000-180,000

7.5HP units: LKR 210,000-350,000

10HP units: LKR 380,000-500,000

*Prices vary by brand (ELGI, Ingersoll Rand, Kaeser), condition, and warranty terms. China-made models cost 15-20% less than European brands.

How to Avoid Scams: 3 Must-Check Details

1. Ask for hour meters (ideal:
