

Second Hand Rock Drill Price in Brazil: 2024 Cost List, Supplier Quotes & ROI Guide

Second Hand Rock Drill Price in Brazil: 2024 Cost List, Supplier Quotes & ROI Guide

Need second hand rock drill prices in Brazil for tunnel projects or mining operations? With 17% growth in Brazil's construction sector last year, contractors are rushing to find affordable equipment. Let's break down current costs, trusted suppliers, and how to avoid overpaying.

Why Second Hand Rock Drills Dominate Brazil's Market

Brazil's mining industry requires 60+ metric tons of iron ore annually, pushing contractors toward budget-friendly used equipment. A 2023 study shows:

Used Atlas Copco drills cost 40-55% less than new units

Local dealers in Sao Paulo offer 6-month warranties

Chinese-made refurbished models start at R\$18,000 (~\$3,500 USD)

Case Study: Minas Gerais Road Project

A Belo Horizonte contractor saved R\$220,000 using three second-hand Sandvik drills instead of new ones. Their secret? Comparing price per piece across multiple suppliers before negotiating bulk deals.

2024 Price Trends & Hidden Costs

Current second hand rock drill prices in Brazil range:

Basic pneumatic models: R\$15,000-25,000

Hydraulic crawler drills: R\$85,000-140,000

Drifter attachments: R\$7,500-12,000

Watch for import taxes if buying from China/Germany - they can add 18-35% to your final quotation. Local suppliers like Rio Maquinas often include clearance fees in their pricing.

3 Steps to Maximize Your Purchase

Follow this buying guide to avoid costly mistakes:

Verify hour meters - 3,000-5,000 operating hours is ideal

Test pressure outputs - Faulty pumps cause 23% of drill failures

Compare ROI - A R\$50,000 used drill generates same output as R\$110,000 new unit

Supplier Spotlight: China vs. Brazil Deals

While Chinese platforms like Made-in-China offer low price lists, delays in shipping parts can stall projects.

Second Hand Rock Drill Price in Brazil: 2024 Cost List, Supplier Quotes & ROI Guide

Brazilian wholesalers provide faster support - expect 10-15% higher costs but 3-day delivery guarantees.

Need a reliable second hand rock drill this quarter? Request multiple quotations before Brazil's infrastructure budget peaks in August. Contractors who bought early in 2023 secured 12% better deals than those who waited.
