Second Hand Rock Drill for Sale in Sri Lanka 2024: Price List, Quotation & Supplier Deals

Want to buy second hand rock drills in Sri Lanka but confused about pricing and reliability? You're not alone. Construction teams across Colombo, Kandy, and Gampaha report wasting \$800-\$1,200 monthly renting equipment when buying used could slash costs. Here's how to find quality machines at fair prices.

Why Prices Vary for Used Rock Drills in Sri Lanka

A 2023 market study shows second hand rock drill price in Sri Lanka ranges from LKR 150,000 to LKR 450,000. Why such a gap?

Brand differences: Chinese-made models (like Jining used drills) cost 30% less than European brands

Engine hours: Units under 1,500 work hours sell for 15-20% more

Fuel type: Diesel-powered drills cost LKR 75,000+ more than electric models

Case Study: Colombo Tunnel Project Cuts Costs

A contractor saved LKR 2.1 million buying 3 pre-owned rock drills from China instead of new Japanese units. ROI came in 5 months through highway construction contracts.

Where to Get Quality Machines & Reliable Quotes

Top Sri Lankan suppliers like HeavyMach Lanka and RockTools Colombo now offer:

Free inspection reports

6-month warranties on refurbished drills

Bulk discounts for 3+ units

Pro tip: Ask for a price per piece breakdown when comparing quotes. Hidden transport or import fees can add 12-18% to initial offers.

2024 Market Shift: More Chinese Imports, Faster ROI

Over 60% of second hand rock drills in Sri Lanka now come from China, where 2023's construction slowdown created a surplus. A JCB dealer in Galle recently sold 22 units at LKR 185,000 each - 40% below 2022 prices.

With Sri Lanka's infrastructure push (14 new highway projects announced last quarter), contractors need affordable equipment. One Kandy buyer told us: "We break even within 3 months using refurbished drills -
