

# Second Hand Screw Diesel Air Compressor Price in Thailand 2024: Supplier Deals, Quotes & Buying Guide

## Second Hand Screw Diesel Air Compressor Price in Thailand 2024: Supplier Deals, Quotes & Buying Guide

Looking for second hand screw diesel air compressor price in Thailand? You're not alone. Over 65% of Thai construction and manufacturing businesses now opt for used equipment to cut costs amid rising fuel prices. But with fluctuating prices and unreliable suppliers, how do you find quality machines without risking your budget?

### Why Thailand's Market Demands Affordable Air Compressors

Thailand's industrial sector grew by 4.2% in 2023, driving demand for cost-effective machinery. A used screw diesel air compressor costs 30-50% less than new models, with popular brands like Atlas Copco or Ingersoll Rand selling for ฿150,000-฿400,000 depending on capacity (7.5 HP to 100 HP). But buyers face two risks: hidden maintenance costs and outdated specs.

### Real Case: How a Bangkok Auto Workshop Saved ฿200,000

Premier Auto Co. needed a 20 HP compressor for spray painting. New units priced at ฿320,000 exceeded their budget. By sourcing a 2021-model second-hand diesel screw compressor from a certified Chinese supplier, they paid ฿120,000 with a 6-month warranty. Result? ROI achieved in 8 months.

### 2024 Price Trends & Smart Buying Strategies

Prices vary wildly on Thai markets. For example:

Portable 7.5 HP models: ฿85,000-฿130,000

Industrial 100 HP units: ฿380,000-฿550,000

Follow this checklist to avoid scams:

Verify operating hours (ideally under 3,000 hrs)

Ask for oil analysis reports

Compare price per kWh output - aim for ฿0.85-฿1.10

### Where to Get Reliable Quotes in Thailand

Major suppliers like Siam Machinery or China-based exporters (e.g., Quzhou Zhongdu Machinery) offer online quotations. Tip: Negotiate 5-10% discounts for bulk orders. For example, three 50 HP compressors might drop from ฿1.2M to ฿1.08M. Always request FOB/CIF terms clarification to avoid hidden shipping fees.

With Thailand's EEC (Eastern Economic Corridor) expansion boosting construction, now's the time to lock in deals. Ready to compare second hand screw diesel air compressor prices? Contact certified suppliers this week
