

Second Hand Screw Diesel Air Compressor for Sale in Chile 2024: Price List, ROI & Supplier Deals

Second Hand Screw Diesel Air Compressor for Sale in Chile 2024: Price List, ROI & Supplier Deals

Need reliable compressed air for mining or construction in Chile? New screw diesel air compressors can cost 50-70% more than second hand models. With Chile's copper mining sector growing at 4.3% annually (National Mining Society 2024), smart buyers are turning to pre-owned equipment. Here's what you need to know about prices, trusted suppliers, and how to maximize ROI.

Why Chile's Market Demands Affordable Solutions

Over 200 Chilean construction firms reported budget cuts in Q1 2024. Meanwhile, maintenance costs for new compressors jumped 18% due to imported parts delays. A used screw diesel air compressor cuts initial investment by \$8,000-\$15,000 USD compared to new units - critical for small/mid-sized operations.

Price Trends: What You'll Pay Today

Current price per piece in Chile ranges:

7-10 bar models: \$4,200-\$6,800 USD

10-15 bar heavy-duty units: \$7,500-\$12,000 USD

Chinese-made used compressors dominate 63% of imports due to cost advantages. German brands like Atlas Copco hold 22% resale value but cost 25-40% more. Always request a quotation with shipping + tax details.

Case Study: 40% Cost Savings in Antofagasta

Mining Corp Chile bought a 2019 Kaishan KG-980 (10 bar) for \$5,700 USD via Santiago-based supplier HeavyMach. New price? \$14,200 USD. After 8 months of daily use, they've saved \$3,100 in fuel vs older piston models. "The ROI hit 162% faster than leasing," said Operations Manager Carlos M.

Your 3-Step Buying Guide

Verify hours: Ideal range = 2,000-4,500 operating hours

Check supplier certifications: ISO 9001 or CECE seals

Compare wholesale deals: Importing 3+ units cuts per-unit costs by 12-18%

Where to Find Trusted Suppliers

Top platforms with Chile delivery:

HeavyMach.cl: 48-hour nationwide support

Alibaba Trade Assurance: Escrow payments + 30-day returns
