

Second Hand Screw Diesel Air Compressor for Sale in NZ 2024: Price List, Quotation & Buying Guide

Second Hand Screw Diesel Air Compressor for Sale in NZ 2024: Price List, Quotation & Buying Guide

Need an affordable screw diesel air compressor in New Zealand? You're not alone. Over 35% of contractors now choose pre-owned industrial equipment to cut costs - and these machines deliver the same air power as new models at 40-60% lower prices. Let's break down what you need to know.

Current Market Prices in New Zealand

Second-hand screw diesel compressors in NZ range from NZ\$8,500 to NZ\$28,000+ depending on:

- Airflow capacity (5 CFM to 600+ CFM units available)
- Operating hours (look for models under 3,000hrs)
- Brand reputation (Atlas Copco and Ingersoll Rand hold value best)

A 2023 TradeMe study shows average prices dropped 12% since 2021 due to increased China-made new models. But smart buyers save more - we've seen certified used Atlas Copco XAHS 366 units sell for NZ\$19,800 (45% off new price) with full service history.

Real Buyer Case: Christchurch Construction Firm

McGrath Builders cut their equipment budget by NZ\$62,000 last year by purchasing 3 reconditioned screw diesel air compressors from a Wellington supplier. "We got 100% ROI within 8 months through reduced downtime," site manager Todd Wallace confirms.

Where to Get Reliable Quotes

Top NZ suppliers like Airtool Sales and Compressed Air Systems offer:

- Free equipment inspections
- 12-month warranty options
- Trade-in deals for old compressors

Always request a price quotation with:

- o Hour meter verification
- o Maintenance records
- o Fuel efficiency data (look for 10-15 L/hr diesel consumption at 75% load)
- o NZ Emissions Certificates

3 Pro Tips Before Buying Used

1. Check for 2021+ models - They're 22% more energy efficient under NZ's new carbon rules
2. Verify oil/filter change frequency - Every 500hrs is ideal
3. Test noise levels - Under 75 dB(A) meets most worksite regulations
