Saudi Arabia's booming construction and oil industries drove a 12% increase in used compressor searches last year. Let's break down how to get best price second hand screw diesel compressors while avoiding costly mistakes.

Why Saudi Contractors Choose Used Screw Diesel Compressors

A new Atlas Copco screw compressor costs over SAR 80,000, but refurbished models sell for 30-50% less. Riyadh-based Al Khaleej Machinery reports that 43% of buyers now opt for pre-owned units to meet tight project budgets. Three key advantages:

Immediate availability: No 6-week wait for imported new units

ROI improvement: 22-month average payback period vs 36 months for new

Proven durability: Most used models have 10,000+ operating hours left
