

Second Hand Screw Diesel Air Compressor in Sweden: 2025 Price Guide, Quotes & ROI Tips

Second Hand Screw Diesel Air Compressor in Sweden: 2025 Price Guide, Quotes & ROI Tips

Need reliable compressed air on a budget? Second-hand screw diesel air compressors save Swedish businesses 40-60% versus new units. But how much should you pay? Who offers trusted suppliers? Let's break down 2025 pricing trends and smart buying strategies.

Current Market Prices in Sweden (2025 Update)

Used screw diesel air compressors in Sweden now cost EUR6,500-EUR18,000 depending on:

- Power range (10-30 kW models most popular)
- Operating hours (under 8,000 hr units preferred)
- Brand (Atlas Copco/Kaeser hold value best)

A recent SweCompressor study shows 13% year-over-year demand growth for refurbished models, driven by Sweden's green tax incentives for circular economy purchases.

Case Study: Gothenburg Construction Firm Cuts Costs

AB Nordic Build saved EUR28,000 by buying a 2021 Atlas Copco XAS 37 KD7 with 5,200hrs through Stockholm-based vendor EcoAir Solutions. Their ROI? Just 8 months of quarry operations.

Where to Find Trusted Suppliers

Avoid "too good to be true" deals from unknown sellers. Focus on:

- Swedish platforms: Maskinisten and EuroMotors verify machine histories
- EU-certified refurbishers: German dealers lead in warranty terms (2+ years common)

Demand price quotes in writing - 68% of buyers negotiate 5-12% discounts by comparing 3+ vendors.

Price vs ROI: What REALLY Matters?

Cheaper != better. Always check:

- Service logs (critical for diesel engines)
- Spare part availability (avoid discontinued models)
- Fuel efficiency claims (test with portable flow meter)

Sweden's energy agency reports modern used compressors use 22% less diesel than 10-year-old units - saving EUR0.28/kWh in typical mining operations.

Tax Breaks You Can't Ignore

Second Hand Screw Diesel Air Compressor in Sweden: 2025 Price Guide, Quotes & ROI Tips

Through 2026, Swedish businesses get 25% VAT deduction when purchasing EU-refurbished equipment. Talk to suppliers about tax-inclusive pricing during negotiations.
