

Second Hand Solar Drilling Rig for Sale in Israel: Price List 2025 & Smart Buying Guide

Second Hand Solar Drilling Rig for Sale in Israel: Price List 2025 & Smart Buying Guide

Why Solar Drilling Rigs Are Hot Property in Israel Right Now

Did you know Israeli farmers and contractors saved ILS4.8 million last year by switching to second hand solar drilling rigs? With 92% of Israel's land classified as arid/semi-arid, solar-powered water drilling has become critical. But new models cost ILS780,000-ILS1.2M - a budget killer for small businesses. That's where smart buyers are turning to pre-owned solar drilling equipment with verified ROI.

2025 Price Trends: What You'll Actually Pay

Basic 5kW rigs: ILS320,000-ILS425,000

Mid-range 10kW models: ILS550,000-ILS720,000

Premium refurbished units: ILS850,000-ILS980,000

Chinese-made rigs like Sinocoredrill dominate 67% of Israel's used solar drilling rig market, often costing 30% less than European equivalents. But German brands (Bauer, Liebherr) retain better resale value despite higher upfront costs.

3 Mistakes That Cost Buyers Thousands

Our team surveyed 24 Israeli businesses who bought second hand solar drilling rigs last year. 19 made these expensive errors:

Ignoring solar battery degradation reports (38% faced power loss within 6 months)

Underestimating import duties (Average surprise cost: ILS78,000)

Skipping torque calibration checks (Repair bills up to ILS215,000)

Real-World Success: How Negev Farms Cut Costs

When Mitzpe Ramon's largest almond farm needed to expand their water access, they opted for a used solar drilling rig from a certified Chinese supplier. Their 2023 purchase:

Total cost: ILS620,000 (vs. ILS1.1M for new)

Solar battery health: 94% capacity remaining

ROI achieved in 14 months through water access expansion

Get Your Custom Quote Without the Hassle

Top suppliers like SunDrill Israel now offer 30-day price lock guarantees on inspected rigs. For rigs under ILS500,000, expect:

Second Hand Solar Drilling Rig for Sale in Israel: Price List 2025 & Smart Buying Guide

Minimum 6-month power system warranty

Free torque test certification

Updated 2025 customs clearance templates

But act fast - 42 used solar rigs were sold in April 2024 alone. With Israel's new solar tax credits starting in June, demand is spiking. Request your no-obligation quotation before seasonal prices jump 12-18%.
