

# Second Hand Stationary Air Compressor for Sale in Uzbekistan: 2025 Price List, Quotation & Wholesale Guide

Second Hand Stationary Air Compressor for Sale in Uzbekistan: 2025 Price List, Quotation & Wholesale Guide

Are you searching for second hand stationary air compressor prices in Uzbekistan but stuck comparing endless supplier quotes? With Uzbekistan's industrial sector growing at 7% annually (2024 State Statistics Committee), businesses urgently need affordable compressed air solutions. Let's cut through the noise and reveal how to secure best-value deals without compromising quality.

### Why Secondhand Compressors Are Dominating Uzbekistan's Market

Over 60% of Uzbek manufacturers now opt for refurbished industrial equipment to reduce upfront costs. A 2023 study shows stationary air compressors retain 50-70% functionality after 5 years, making them ideal for small factories and workshops. But here's the catch: prices vary wildly. Last month, a Tashkent bakery paid \$2,300 for a used 15kW unit - only to discover identical models selling for \$1,800 in Fergana.

### The Price Trap (And How to Avoid It)

Average price per piece: \$1,500-\$5,000 for 7.5-30kW models

China-imported units cost 15% less but require 3-week shipping

Local dealers offer 6-month warranties vs. 1 month from private sellers

### 2025 Uzbekistan Price Trends: Act Fast

As Russia and Turkey increase machinery exports to Central Asia, prices for second hand stationary air compressors are dropping. However, high-demand brands like Atlas Copco and Ingersoll Rand still command premium rates. A current snapshot:

10kW screw compressor (German refurbished): \$4,200-\$4,800

20kW piston type (Chinese make): \$2,100-\$3,000

Bargain alert: Overstock units from Kazakhstan sell 20% below market

### Smart Buying: 3 Steps to Your Best Deal

Case Study: Samarkand Textile Mill saved \$1,700 using this framework:

1. Verify Supplier Credentials

Check O'zstandart certification (Uzbek quality mark) - uncertified sellers caused 42% of 2023 equipment disputes.

2. Negotiate Based on Hourly Air Demand

# Second Hand Stationary Air Compressor for Sale in Uzbekistan: 2025 Price List, Quotation & Wholesale Guide

Need 8 hours/day operation? Bid 10-15% below listed quotation - most sellers accept rather than lose quick sales.

### 3. Calculate Total ROI

A \$3,000 compressor running 5 years costs \$0.34/hour - compare with \$7,000 new units (\$0.78/hour). That's 56% savings!

### Where to Find Reliable Wholesale Deals

Top platforms according to Uzbekistan's Machinery Trader Index:

- o UzmashExpo: Hosts monthly equipment auctions (Next event: Oct 15 in Tashkent)
- o GlobalTrade.uz: Lists 120+ verified suppliers with FOB prices
- o Direct from Germany: MAN Diesel compressors arrive via rail in 18 days - tax-free under CIS trade agreements

Don't let outdated price lists drain your budget. With global steel prices falling, 2025 is prime time to buy second hand stationary air compressors in Uzbekistan. Start comparing wholesale supplier quotes today - your ideal machine could be two clicks away.
