

Second-Hand Stationary Air Compressor in Colombia 2025: Price List, Quotation & Wholesale Deals

Second-Hand Stationary Air Compressor in Colombia 2025: Price List, Quotation & Wholesale Deals

Looking for a second-hand stationary air compressor in Colombia but overwhelmed by unclear price quotes? You're not alone. Over 65% of industrial buyers in Medellin and Bogota report frustration with inconsistent cost estimates for used machinery. Let's break down what you need to know to make a smart purchase.

Why Colombia's Second-Hand Air Compressor Market Is Booming

Colombia's manufacturing sector grew 4.2% in 2023 (DANE), driving demand for affordable equipment like stationary air compressors. But new units from brands like Ingersoll Rand or Atlas Copco cost PHP65-120 million COP. That's why smart buyers turn to used stationary compressors - often 40-60% cheaper with proper vetting.

Real-World Price Trends: What to Expect in 2025

Here's what you'll pay for common models:

5 HP reciprocating compressor: PHP12-18 million COP

20 HP screw-type compressor (2020 model): PHP35-50 million COP

Custom industrial systems: Request a quotation for exact pricing

Case Study: Cartagena Auto Plant Cuts Energy Cost by 31%

NovaMotive replaced their outdated system with a refurbished 50 HP compressor from a German supplier. Result? PHP9.2 million COP annual savings. Their secret? A buying guide checklist we'll share below.

Your 3-Step Purchase Strategy
