

Second Hand Water Well Drilling Rig for Sale in Argentina: 2025 Price List, Quotes & ROI Guide

Second Hand Water Well Drilling Rig for Sale in Argentina: 2025 Price List, Quotes & ROI Guide

Looking for second hand water well drilling rig prices in Argentina? You're not alone. Over 300 farms and mining companies searched for affordable rigs last month. Let's cut through the noise and show you real costs, trusted suppliers, and smart buying strategies.

Why Argentina's Market Demands Used Drilling Rigs

New rigs cost \$50,000-\$120,000 - a budget killer for small businesses. But second-hand water well drilling rigs in Argentina sell for 40-60% less. Take Juan Perez, a Mendoza vineyard owner: he bought a 2019 model for \$28,500 last month, saving enough to drill 3 extra wells.

2025 Price Trends & Regional Variations

Current average prices:

Portable rigs (2018-2020): \$15,000-\$25,000

Mid-sized truck-mounted units: \$30,000-\$45,000

Deep drilling rigs (300m+ capacity): \$50,000+

Prices in Buenos Aires run 12% higher than Patagonia due to transport costs. But Cordoba offers tax breaks - 8% VAT reduction for agricultural buyers until Dec 2025.

3 Steps to Get the Best Deal

Follow this proven buying guide:

Compare quotes from China and Brazil: Chinese suppliers like SANY offer rigs at \$18/kg shipping cost. Brazilian refurbished models cost 15% more but have faster delivery.

Check hydraulic systems and engine hours - aim for
