

# Stationary Air Compressor Cost in Norway 2024: Price List, Supplier Quotes & Buying Guide

Stationary Air Compressor Cost in Norway 2024: Price List, Supplier Quotes & Buying Guide

Need to buy a stationary air compressor in Norway but unsure about prices? You're not alone. Over 65% of industrial buyers in Scandinavia overpay due to hidden fees or mismatched specifications. Let's break down costs, compare price per piece from top suppliers, and show how to get the best ROI on your purchase.

What Drives Stationary Air Compressor Prices in Norway?

Norwegian stationary air compressor costs range from 10,000 NOK for basic 3HP models to 80,000+ NOK for industrial 50HP units. Three factors control your final price:

Power type: Electric models cost 15% less than diesel in long-term use (2023 Oslo Energy Efficiency Report)

Capacity: 20-30 CFM compressors dominate 72% of sales in Norwegian workshops

Supplier location: German-made units cost 20% more than Chinese alternatives but last 2-3 years longer

Real-World Case: Trondheim Construction Firm Saves 22%

A drilling company slashed their stationary air compressor costs from 67,000 NOK to 52,300 NOK by:

Comparing price lists from 5 suppliers

Choosing a 25CFM electric model over diesel

Timing their purchase during Q4 manufacturer rebates

2024 Norway Price Breakdown: New vs Used

Check these updated averages from Bergen's machinery dealers:

Brand-new 10HP units: 24,000-38,000 NOK (Atlas Copco, Ingersoll Rand)

Refurbished 15HP units: 18,500-29,000 NOK (2-year warranty included)

Emergency rentals: 800-1,200 NOK/day (Only viable for
