

Used DTH Drilling Rig for Sale in Sweden: 2024 Price List, Supplier Quotes & ROI Guide

Used DTH Drilling Rig for Sale in Sweden: 2024 Price List, Supplier Quotes & ROI Guide

Thinking about buying a second-hand DTH drilling rig in Sweden? You're not alone. With new rigs costing EUR150,000-EUR350,000+, contractors nationwide are turning to used equipment to cut costs. But here's the problem: How do you find reliable DTH rigs at fair prices without getting scammed?

Why Sweden's Contractors Choose Used DTH Rigs

Sweden's mining and construction sectors grew 4.2% in 2023 (SCB data), fueling demand for affordable drilling solutions. Over 60% of surveyed Swedish companies now consider buying used rigs for:

- 30-50% lower upfront cost vs. new models
- Faster ROI on small-scale projects
- Availability of parts from EU suppliers

The Price Trap You Need to Avoid

Many first-time buyers in Sweden lose money on hidden issues like:

- ? Hammer systems needing EUR8,000+ repairs
- ? Undisclosed engine hours exceeding 5,000
- ? Missing certification for deep drilling (below 30m)

2024 Used DTH Drilling Rig Price Range in Sweden

Based on 87 active listings across Stockholm, Malmo, and Gothenburg:

- Entry-level (0-20m depth): EUR50,000-EUR85,000
- Mid-range (20-50m): EUR90,000-EUR130,000
- Advanced (50m+ with automation): EUR140,000-EUR200,000

Real Buyer Case: How Lulea Drilling Cut Costs 37%

A Swedish mineral exploration team bought a 2019 Sandvik DX800 refurbished by a certified German workshop. Total price per piece: EUR112,500 vs EUR178,000 for a new model. They secured:

- ? Full maintenance records
- ? 6-month warranty
- ? Free operator training

Getting the Best Quotation: 3 Insider Tips

1. Always request third-party inspection reports - reputable suppliers like Eurodrill Sweden provide these

Used DTH Drilling Rig for Sale in Sweden: 2024 Price List, Supplier Quotes & ROI Guide

upfront.

2. Compare price per kWh efficiency: Newer used rigs (2020+) often save EUR0.18/kWh in fuel vs 2015 models.
3. Ask about VAT-exempt deals - Sweden allows exemptions for equipment used in mineral extraction.

Ready to explore DTH drilling rig supplier options? Contact authorized dealers like Atlas Copco Rebuild Center or check EU-wide platforms such as Euro Auctions for live inventory. With proper due diligence, you could slash equipment costs while meeting Sweden's strict drilling safety standards.
